

# 2022 IMPACT REPORT

Jesus is our lead story, In fact, Jesus is our only story. He is preminent in our hearts and central in all we do.

We believe Jesus is unrivaled in history and eternity. He is God and He is good; glorious both now and forever. His Name is the only name that saves. His power is the only power that can raise us from the dead.

Our goal is not just to get people to church. Ultimately, we want people to meet Jesus.

That's why we say we are a Jesus church. We really don't want to be identified by any other name.

Everything we do is because of what Jesus has already done.

We believe that Jesus, who was God in human flesh, erased our debt on the cross and lives to be our life. Jesus did what we could never do to allow us to experience what we could never have apart from Him.

The gospel we celebrate is not that our sin made us bad people and somehow Jesus makes us better. We believe our situation was far worse than that. Our sin left us spiritually dead and separated us from the perfect Father.

Our good news is this: Jesus didn't just come to make us better versions of ourselves. Jesus came to bring us from death to life.

All we do and say is anchored in this gospel story.
