

# Well Child Policy

For the safety + wellness of all, children who show signs of sickness will not be allowed into the bloom environment. We require that children be fever-free for 24 hours (without the use of fever-reducing medications) before entering bloom. This is for the health and protection of all children, families, and Door Holders. You are encouraged to bring your child back to us as soon as he or she is well. If an illness is discovered after a child is in the environment, your child will be separated from the other children and a member of our Staff Team will contact you.

**We ask that you worship with us online if your child is experiencing any of the following symptoms:**

- Fever
- Vomiting
- Diarrhea (even if associated with teething or medication)
- Any symptoms of childhood diseases such as scarlet fever, German measles, mumps, chicken pox, strep throat, flu, or any other contagious or infectious disease
- Sore Throat
- Croup
- Any contagious or unexplained rash
- Pink eye or other eye infections
- Lice
- Cloudy or green runny nose or persistent cough
- Common cold from onset through one week
- If he or she has tested positive for COVID in the last 5 days
